The Vision® hood is ultra-light, slim and will fit into tight areas, all while offering optimal face, ear and neck coverage. ArcOne® knows that every welder is different and his or her tasks can change every day. That's why we offer the largest selection of lens options for the Vision® hood, all designed specifically to help you optimize your welding productivity.

INDUSTRIAL GRADE

Premium quality lenses built for heavy-duty, all day welding. ArcOne's industrial grade welding lenses for the Vision® hood are all built with superior optical clarity, and have large viewing areas. They are ideal for low amp TIG welding and are dust and water resistant to handle the toughest of conditions.

PROFESSIONAL GRADE

Built for the professional welder, these lenses come with HD Technology and many of the same features as premium Industrial grade lenses.
