

2000 Series

The SE-2000 Series of safety eyewear is a notch above the 1000 Series in style, creates an elegance not common for price-performance product. The safety glasses feature a sporty, flexible, lightweight design that your employees will be happy to wear both on and off the job.

The 2000 Series comes with rubber tips for added comfort and multiple lens/finish combinations including IR5 for cutting and brazing operations. Polycarbonate lenses provide 99.9% UVA/ UVB/UVC protection. The 2000 Series is Z87 rated.
