

AP Breathing Tube with FR Cover

AP-BT-01 ArcOne's AirPlus® air purifying respirator system is a motorized, battery operated system that blows a constant supply of fresh, filtered air over the face. It creates a positive pressure inside the respirator head top keeping out harmful welding fumes and particulates. The AirPlus® system has an average battery life of 14 hours, has 8 Airflow settings, an audible alarm and vibration alert to let you know when airflow is low or filter is clogged, battery that recharges in 5-7 hours, charger with LED indicators, audible and visual alarms when battery is low, comes with a flexible breathing tube with quick disconnect & flame retardant cover, as well as a single HEPA filter, Airduct headgear assembly, washable face seal and adjustable waist belt.
